

PRODUCT BROCHURE

2550mm x 1365mm x 2030mm | Weight: 280kg

Designed and manufactured by Cyclehoop, the Bikehangar offers a secure solution to long-term cycle parking and an effective way to protect bikes from tough weather conditions and vandalism. This award-winning product stores six bikes within half the space of a car parking bay, making it ideal for areas where outdoor cycle storage space is necessary.

Features

- Provides a safe and dry storage space for six bicycles
- Two units can fit into a single car parking space
- High-density internal rack with high low configuration
- Easy to park without handlebars clashing
- Gas sprung door allows easy opening
- Adjustable feet can be installed on uneven surfaces
- Open bottom allows leaves and litter to blow through
- Reflective and high visibility banding on edges
- Galvanised steel frame
- EUIPO Reg. No. 002437897-0001
- Award winning Cycle Parking
